07.00	Registrations
07.50	Welcome Roberto Chiesa, Germano Melissano
08.00-08.48	SESSION 1 Venous I Moderators: Domenico Baccellieri Julio C. Peclat Marie Josee van Tongerlo - van Rijn
08.00	A minimally invasive technique of open saphenectomy. How I do it Speaker: Calógero Presti
08.05	Advances in the treatment of venous insufficiency with dense foam sclerotherapy Speaker: Frederico Araujo Oliveira
08.10	Choosing between superficial venous interventions in modern venous practice Speaker: Manj S. Gohel
08.15	Modern sclerotherapy: what has changed? Speaker: Enric Roche
08.20	Foam sclerotherapy and the Brazilian Public Health System: 10-year results Speaker: Marcelo Liberato de Moura
08.25	Why Polidocanol Endovenous Microfoam (PEM) is becoming the gold standard treatment modality for symptomatic refluxing superficial veins despite limited long-term results Speaker: Alexandra Natalie Ascher
08.30	Cianoacrylate: from patient selection to long-term outcomes Speaker: Mattia Mirandola
08.35-08.48	Discussion

HOME

08.50-09.39	SESSION 2 Peripheral arterial disease I Moderators: Gonçalo Cabral Luca di Marzo Marta Lobato
08.50	In stent restenosis after drug eluting stent in the superficial femoral artery: plaque morphology comparison between different platforms Speaker: Gianmarco de Donato
08.55	Lower limb revascularization by means of thrombectomy with specific devices Speaker: Stefano Bonvini
09.00	Endovascular PTA and stenting of deep femoral artery lesions is possible and effective Speaker: Pasqualino Sirignano
09.05	Preventive IMA embolization: a key role in AAA sac management? Speaker: Michele Antonello
09.10	When innovation meets real-world challenges in SFA treatment Speaker: Daniele Mascia
09.15	The role of a mimetic double layer stent for complex femoro-popliteal disease Speaker: Gianmarco de Donato
09.20	Optimizing treatment of calcified PAD: the critical role of vessel preparation Speaker: Felice Pecoraro
09.25-09.39	Discussion

◀ HOME

09.40-10.28	SESSION 3 Critical topics in arterial surgery Moderators: Stefano Bonardelli Jorge Fernández Noya Fiona Rohlffs
09.40	Oncovascular surgery: role of the vascular surgeon in the treatment of neoplastic lesions Speaker: Gian Franco Veraldi
09.45	Does omentoplasty at index open aortic repair prevent from infection and aortoenteric fistula? Speaker: Gabriele Piffaretti
09.50	Modern management of Median Arcuate Ligament Syndrome (MALS) Speaker: Benjamin Starnes
09.55	Cadaver lab testing in preclinical evaluation of new devices, the key role of skilled independent physicians Speaker: Luca Garriboli
10.00	Off-IFU versus IFU-concordant low profile endograft use in endovascular aneurysm repair: IFU adherence, sac remodeling, and mid-term outcomes Speaker: Felice Pecoraro
10.05-10.18	Discussion
10.18-10.28	Keynote Lecture Nelson De Luccia Open renal artery reconstructions in endovascular era

HOME

10.30-11.23	SESSION 4 Peripheral arterial disease II Moderators: Diletta Loschi Pasqualino Sirignano Jos C. van den Berg
10.30	Retrospective multicenter study of below the knee revascularization in the absence of saphenous vein: comparison of prosthetic bypass and endovascular treatment Speaker: Raffaello Bellosta
10.35	Peroneal artery bypass for limb salvage in chronic limb-threatening ischemia: a multicenter 5-year experience Speaker: Efrem Civilini
10.40	Extreme retrograde punctures Speaker: Marta Lobato
10.45	Hybrid treatment of aorto-iliac occlusive disease Speaker: Walter Dorigo
10.50	Current options for revascularization of the ischemic diabetic foot: what has changed in recent years Speaker: Edwaldo E. Joviliano
10.55	The emerging role of bioresorbable scaffolds in BTK disease: clinical aspects and latest evidences Speaker: Daniele Mascia
11.00-11.13	Discussion
11.13-11.23	Keynote Lecture GONÇALO CABRAL Distal and ultra distal bypass after failed endo: challenges and solutions

HOME

11.25-12.13	SESSION 5 Vascular emergencies I Moderators: Nelson De Luccia Erica Mitchell Valerio Tolva
11.25	SVS blunt thoracic aortic injury. Clinical practice guidelines 2.0 Speaker: Ali Azizzadeh
11.30	Current controversies on blunt aortic trauma Speaker: Luís Mendes Pedro
11.35	Blunt traumatic aortic injuries in 2026: when to intervene, when to wait, and how to do it safely Speaker: Tania Saez Guzman
11.40	Complex aortic emergencies: from silent killer to surgical success Speaker: Orwa Falah
11.45	Long-term outcomes and cardiovascular remodeling after TEVAR for blunt thoracic aortic injury Speaker: Rabih Chaer
11.50-12.03	Discussion
12.03-12.13	Keynote Lecture Benjamin Starnes Vascular trauma: an evolution in therapy

◀ HOME

12.15-13.12	SESSION 6 Arterial / Carotid Moderators: Pedro Amorim Franco Grego Tbd
12.15	Carotid body tumor: the San Raffaele experience Speaker: Carlotta Bugna
12.20	From CEA to TCAR to CAS. A high volume surgeon journey on carotid disease over last 20 years Speaker: Fernando Gallardo
12.25	Micromesh stent for CAS Speaker: Gianbattista Parlani
12.30	Are the CREST-2 results reliable to change clinical practice in patients with asymptomatic carotid stenosis? Speaker: Armando Mansilha
12.35	Visceral artery aneurysms: insights from the European Visceral Artery Revascularization (EVisAR) study Speaker: Roberto Silingardi
12.40	Carotid body tumor: hybrid approach Speaker: Paolo Frigatti
12.45	The endless dilemma in the treatment of asymptomatic carotid disease: did CREST-2 change our paradigm? Speaker: Andrea Kahlberg
12.50-13.05	Discussion
13.05-13.12	Special Lecture Franz W. Baruffaldi Preis Priorities in managing a major emergency involving 12 subjects with severe burns
13.12-13.45	LUNCH

◀ HOME

13.45-14.53	SESSION 7 Aortic arch and thoraco-abdominal aortic aneurysm Moderators: Dittmar Böckler Mauro Gargiulo Alvaro Razuk
13.45	Results of the arch brave multicenter study for branched zone zero repair Speaker: Nikolaos Tsilimparis
13.50	Total endovascular aortic arch repair with triple branched arch endograft Speaker: Giovanni Pratesi
13.55	How to deal with arch pathology in high risk patients for open repair Speaker: Ruy Fernandes e Fernandes
14.00	Stroke prevention in TEVAR: what is the role of air, what are the outcomes of RCTs on carbondioxide flushing and how can a new device help to eliminate the risks associated with air-embolism? Speaker: Tilo Kölbel
14.05	120 carotid-subclavian bypasses - Do we consider the subclavian ostium as part of the sealing zone? Speaker: Beate Lindberg
14.10	TEVAR in the presence of an aberrant left vertebral artery: planning, pitfalls, and revascularization strategies Speaker: Tania Saez Guzman
14.15	Role of aortic arch debranching in the era of branched endografts Speaker: Muhammad Ali A. Rana
14.20	Endovascular treatment of aneurysms and dissections of the aortic arch involving zone 0 Speaker: Mauri L. Comparin
14.25-14.43	Discussion
14.43-14.53	Keynote Lecture Stéphan Haulon Total endovascular repair of aortic arch aneurysms

◀ HOME

14.55-16.13	SESSION 8 Complex aortic procedures Moderators: Rocco Giudice Luís Mendes Pedro Giovanni Nano
14.55	Results of BEVAR using new-generation balloon-expandable or self-expandable bridging stents Speaker: Andrea Kahlberg
15.00	Clinical and geometrical results of self-expandable stent-grafts for thoraco-abdominal aortic repair Speaker: Luca Mezzetto
15.05	Punch, ring, reload, deploy: a pole-position physician-modified endograft workflow Speaker: Csaba Csobay-Novák
15.10	Endovascular treatment of abdominal aortic aneurysms with hostile neck using polymer-ring stent-grafts Speaker: Horatiu Moldovan / Marian Broasca
15.15	Endo arch repair with multifeature endografts; scallop, fenestration and branch to manage complex anatomy Speaker: Michele Piazza
15.20	We now have multiple options for TEVAR at left subclavian level. Which should we use and when? Speaker: Michael Jenkins
15.25	Open repair vs branched endovascular aortic repair in residual dissection after Type A surgical repair Speaker: Giovanni Tinelli
15.30	Advantages of a semi-custom endograft with low radial force in the treatment of aortic dissections Speaker: Paolo Frigatti
15.35	Fenestrated and branched endovascular repair for complex abdominal and thoraco-abdominal aneurysms with repositionable devices: technical pearls and pitfalls Speaker: Edwaldo E. Joviliano
15.40-16.03	Discussion
16.03-16.13	Keynote Lecture Eric Verhoeven How to choose the best option for patients with complex aortic disease

HOME

16.15-17.08	SESSION 9 Venous II Moderators: Edoardo Cervi Young M. Erben Paolo Zamboni
16.15	DUS imaging in patients with deep venous disease Speaker: Marie Josee van Tongerlo - van Rijn
16.20	MRI in pelvic venous insufficiency Speaker: Anna Palmisano
16.25	Pelvic venous disease: how I do zonal diagnosis and embolization - From IVUS to coils, glue & hybrid strategies Speaker: Marald Wikkeling
16.30	Diagnostic and therapeutic pathways for pelvic venous disorders - A national multidisciplinary consensus Speaker: Domenico Baccellieri
16.35	Venotonic drugs for chronic pelvic pain: a systematic review Speaker: Monika Gloviczki
16.40	Optimizing circulation through breathing during exercise: clinical changes in patients after two years of follow-up Speaker: Rebeca Reachi Lugo
16.45-16.58	Discussion
16.58-17.08	Keynote Lecture Gloria Maria Martinez Salazar How to perform pelvic vein embolization and choose the right technique

◀ HOME

17.10-18.13	SESSION 10 Complications prevention and management Moderators: Irene Morelli Giovanni Rossi Eric Verhoeven
17.15	Endovascular management of aorto-oesophageal fistula in a 2 year-old Speaker: Erica Mitchell
17.20	Treatment of aortic graft/stent-graft infections, including the management of infected fenestrated/branched arch/TAAA stent-grafts Speaker: Anders Wanhainen
17.25	Open surgery is the best option in abdominal and thoracic aortic endograft infection Speaker: Yamume Tshomba
17.30	Neo-aorto-iliac system: how I do it Speaker: James H. Black III
17.35	Mycotic aortic aneurysm - Current status Speaker: James Tunnicliffe
17.40	What is the lifetime outcome for patients undergoing endovascular treatment of aortic interventions and does surveillance matter? Population data from primary care Speaker: Michael Jenkins
17.45	The role of the anatomical configuration of the lumbar arteries in the progression of the aneurysm sac following standard EVAR Speaker: Filippo Benedetto
17.50	Managing reinterventions after F/BEVAR Speaker: Fatima Javairiah
17.55-18.13	Discussion

◀ HOME

18.15-19.05	SESSION 11 Vascular emergencies II Moderators: Gianluca Faggioli Beate Lindberg Flavio Peinetti
18.15	Xenograft and homograft surgical reconstruction in complicated aortic infections Speaker: Valerio Tolva
18.20	Multidisciplinary protocols for acute mesenteric ischemia improve outcomes Speaker: Rabih Chaer
18.25	Acute embolic mesenteric ischemia: a vascular emergency Speaker: Rudi Stramanà
18.30	Management of acute mesenteric ischemia with retrograde open mesenteric stenting Speaker: Nabil Chakfé
18.35	Vascular trauma: open and endo resources for a large center Speaker: Tayrine Mazotti
18.40	Management of pediatric vascular emergencies. Who will be the caretakers of pediatric vascular trauma? Speaker: Erica Mitchell
18.45	Endovascular hemostasis with an occlusive balloon in inferior vena cava lesions Speaker: Ricardo Yukio Okawa
18.50-19.05	Discussion

HOME

07.30-08.13	SESSION 12 ROUND TABLE Gender issues in vascular surgery Moderators: Young M. Erben Alice Lopes Kak Khee Yeung
	Panellists: Alexandra Natalie Ascher, Bernadette Aulivola, Carlotta Bugna, Mariangela De Masi, Fatima Javairiah, Marta Lobato, Chiara Lomazzi, Diletta Loschi, Gloria Maria Martinez Salazar, Tayrine Mazotti, Irene Morelli, Grace Mulatti, Rebeca Reachi Lugo, Sonia Ronchey, Tania Saez Guzman, Annarita Santoro, Marie Josee van Tongerlo - van Rijn, Simona Zannetti, Dora Z. Zatyko
07.30-07.42	Debate 1 Is meritocracy alone sufficient in modern surgical leadership?
	Introduction
	YES Speaker: Erica Mitchell
	NO Speaker: Fiona Rohlffs
	Audience voting
07.42-08.00	Debate 2 Should gender based “quotas” be enforced at least in events funded with public money?
	Introduction
	YES Speaker: Alice Lopes
	NO Speaker: Beate Lindberg
	Audience voting
	Invited Lecture Leadership in different medical specialties Speaker: Elena Bignami
08.00-08.13	Panel discussion

HOME

08.15-09.18	SESSION 13 Artificial Intelligence I Moderators: Antonio Freyrie Fatima Javairiah Stefano Michelagnoli
08.15	The proof of concept of computational simulation on TEVAR Speaker: Santi Trimarchi
08.20	Prediction of cardiovascular disease progression in AAA patients using AI, the VASCUL-AID platform Speaker: Kak Khee Yeung
08.25	Automated objective metrics processing for training in vascular surgery Speaker: Nabil Chakfé
08.30	AI in DVT diagnosis - Changing the standard pathway Speaker: Efthymios Avgerinos
08.35	Advancing aortic care: from advanced imaging to robotic intervention Speaker: Dora Z. Zatyko
08.40	AI applications for aortic procedures, is modern EVAR too complex to be managed with human estimation alone? Speaker: Fernando Gallardo
08.45	IMPROVE-AD gone artificial: how digital twin will be better in uncomplicated TBAD Speaker: Firas F. Mussa
08.50-09.08	Discussion
09.08-09.18	Keynote Lecture Elena Bignami Artificial Intelligence in peri-operative medicine

◀ HOME

09.20-10.28	SESSION 14 Aortic dissection I Moderators: Roberto Di Bartolomeo Kay-Hyun Park Dora Z. Zatyko
09.20	FET in chronic aortic dissection Speaker: Alessandro Castiglioni
09.25	5-year results of EndoSuture Aneurysm Repair (ESAR) in patients with wide neck AAA from the ANCHOR Registry Speaker: Giovanni Pratesi
09.30	IVUS guided intervention of malperfusion syndrome in complicated Type B or residual Type B aortic dissection Speaker: Jimmy Wei Hwa Tan
09.35	How to safely perform TEVAR for acute Type B intramural hematoma Speaker: Jean Panneton
09.40	Strategies for BEVAR in chronic aortic dissection Speaker: Jorge Fernández Noya
09.45	Open surgery in chronic Type B aortic dissection Speaker: Laurent Chiche
09.50	Open surgical adjuncts to enhance F/BEVAR feasibility Speaker: Bernardo Mendes
09.55-10.16	Discussion
10.16-10.26	Debate Joseph V. Lombardi High risk features may indicate TEVAR in Type B aortic dissection Firas F. Mussa NO: a CRT is needed
10.26-10.28	Audience voting

◀ HOME

10.30-11.38	SESSION 15 Thoraco-abdominal aortic aneurysm I Moderators: Jean Panneton Sonia Ronchey Tbd
10.30	Clinical experience with a new TAAA system Speaker: Stoyan Kondov
10.35	Transradial approach for BEVAR. One year accumulated experience Speaker: Nilo Mosquera
10.40	Total endovascular aortic repair by F/BEVAR from ascending to infra-renal aorta/iliac arteries Speaker: Mauro Gargiulo
10.45	Renal arteries complications in F/BEVAR Speaker: Alvaro Razuk
10.50	Strategies for shaggy aorta in open thoracic aortic surgery Speaker: Kay-Hyun Park
10.55	Inner vs outer branches for complex aortic repair. Results of a multicenter study Speaker: Nikolaos Tsilimparis
11.00	Dedication matters - Durable bridging stents in FEVAR and BEVAR Speaker: Eric Verhoeven
11.05	Aortic arch reconstruction by new endoluminal device: clinical practice and primary results Speaker: Chang Shu
11.10-11.33	Discussion
11.33-11.43	Keynote Lecture Joseph S. Coselli TAAA open surgery (in the endovascular era)

HOME

11.45-12.45	SESSION 16 Aortic dissection II Moderators: Joseph V. Lombardi Natzi Sakalihasan Santi Trimarchi
11.45	Early and mid-term results of thoraco-abdominal aneurysms and chronic dissections treated with a Brazilian fully repositionable and retrievable endograft Speaker: Arno von Ristow
11.50	What do we know about the mid-term outcomes of the STABILISE technique? Speaker: Luís Mendes Pedro
11.55	False lumen occlusion is becoming standard of care: long-term results from the international multicenter Candy-Plug Registry Speaker: Tilo Kölbel
12.00	The influence of shape differences and aortic remodelling after aortic Type B dissections Speaker: Kak Khee Yeung
12.05	Destiny of aortic branches after TEVAR in aortic dissection Speaker: Igor Koncar
12.10	Why zone 2 TEVAR is preferred over zone 3 for acute Type B aortic dissection Speaker: Jean Panneton
12.15	Spinal artery preservation after STABILISE: a multicentre analysis of patency and clinical implications Speaker: Alice Lopes
12.20-12.35	Discussion
12.35-12.45	Keynote Lecture Germano Melissano STABILISE Registry
12.45-13.15	LUNCH

HOME

13.15-14.23	SESSION 17 Aorta I Moderators: Mariangela De Masi Chang Shu Nikolaos Tsilimparis
13.15	A new solution to an old challenge: off-the-shelf single-branch repair for Type A dissection Speaker: Ali Azizzadeh
13.20	Failing forward: strategies to plan endografts on the long run and avoid regret Speaker: Bernardo Mendes
13.25	Endovascular treatment of Type I endoleak after arch-branch Speaker: Tomasz Jakimowicz
13.30	How to implement a physician modified program in your practice/institution Speaker: Young M. Erben
13.35	Improving results on outpatient EVAR program Speaker: Alvaro Razuk
13.40	Physician modified endografts - Current status and future directions Speaker: Benjamin Starnes
13.45	Real-world early outcomes of a new off-the-shelf thoraco-abdominal endoprosthesis Speaker: Steven Maximus
13.50	Physician modified double fenestrated endografts for aortic arch disease: indications and results Speaker: Ludovic Canaud
13.55-14.13	Discussion
14.13-14.23	Keynote Lecture Ottavio Alfieri, Francesco Maisano The “Alfieri operation”: 35 years from intuition to worldwide standard

HOME

14.25-15.18	SESSION 18 Aorta genetics Moderators: Aung Ye Oo Yamume Tshomba Tbd
14.25	Expanding role for endovascular treatment of complex aortic disease in genetically triggered aortic disease Speaker: Anders Wanhainen
14.30	Open surgery for heritable aortopathies Speaker: Joseph S. Coselli
14.35	Thoraco-abdominal aortic intervention as part of a multi-segment strategy for syndromic disease: the Liverpool experience Speaker: Manoj Kuduvalli
14.40	Transcriptomics and new therapeutic hypothesis Speaker: Alessandro Pini
14.45	Is CILCA variant of genetic origin? Speaker: Annarita Santoro
14.50	Truth, lies, and statistics in endovascular therapy for Marfan syndrome Speaker: James H. Black III
14.55-15.08	Discussion
15.08-15.18	Keynote Lecture John A. Elefteriades The “new” enemy book of heritable aortopathies

HOME

15.20-16.23	SESSION 19 Venous III Moderators: Efthymios Avgerinos Marcelo Liberato de Moura Chiara Lomazzi
15.20	Iliac vein aneurysm: a rare circumstance with a curious ending Speaker: Mattia Mirandola
15.25	Role of open reconstruction in venous outflow obstruction Speaker: Manj Gohel
15.30	Update on new venous guidelines of the North-American Vascular Societies: what is new and what is controversial Speaker: Peter Gloviczki
15.35	Who, when, and how to treat with symptomatic acute DVT: getting the right strategy Speaker: Domenico Baccellieri
15.40	Future is mechanical thrombectomy; paradigm change in endovascular acute DVT treatment Speaker: Mert Dumantepe
15.45	New technology in vascular ultrasound field Speaker: Edoardo Cervi
15.50	Clinical factors associated with iliac vein stent thrombosis Speaker: Enrico Ascher
15.55-16.13	Discussion
16.13-16.23	Keynote Lecture Stephen A. Black Inferior vena cava reconstruction

◀ HOME

16.25-17.18	SESSION 20 Interesting vascular topics Moderators: Gonçalo Cabral John A. Elefteriades Tbd
16.25	Surgical management of vascular rings - How to do it? Speaker: Aung Ye Oo
16.30	Role of vascular surgeons in cardiopulmonary emergencies (ECMO and pulmonary embolism) Speaker: Muhammad Ali A. Rana
16.35	Tbd Speaker: Mara Scandroglio
16.40	State of the art treatment for acute mesenteric ischemia Speaker: Tayrine Mazotti
16.45	Importance of IVUS in aortic procedure Speaker: Wassim Mansour
16.50	Early-cannulation grafts for vascular access: bridging the gap between catheter dependence and durability Speaker: Matteo Bossi
16.55	VORTEC technique in different anatomical settings Speaker: Zoran Rancic
17.00-17.18	Discussion

◀ HOME

17.20-18.30	SESSION 21 Interesting aortic topics Moderators: Igor Koncar Gabriele Piffaretti Benjamin Starnes
17.20	Renal protection in complex aortic procedures Speaker: Diletta Loschi
17.25	Evaluation of cost-effectiveness of iliac branch endoprosthesis: the ECO-IBE multicenter study Speaker: Andrea Kahlberg
17.30	Novel branched endograft for complex abdominal aortic aneurysms Speaker: Alexandre Araujo Pereira
17.35	The treatment for challenge anatomy of AAA Speaker: Chang Shu
17.40	Surgical treatment for midaortic syndrome: our experience Speaker: Beate Lindberg
17.45	Long-term outcome data after EVAR underline need for lifelong surveillance Speaker: Dittmar Böckler
17.50	Rescue strategies for failed EVAR Speaker: Fatima Javairiah
17.55	Sex differences in AAA Speaker: Natzi Sakalihasan
18.00-18.20	Discussion
18.20-18.30	Keynote Lecture Aung Ye Oo Management of aorto-oesophageal fistula

HOME

07.30-07.58	SESSION 22 ROUND TABLE Unmet needs in EVAR: next steps for a real consolidation Moderator: Vicente Riambau
	Panellists: Marian Broasca Nicola Favia Adelino Leite Moreira Giuseppe Mazzotta Stefano Pirrelli Francesco Stilo

HOME

08.00-08.53	SESSION 23 Advancements in diagnosis Moderators: Francesco De Cobelli Anna Palmisano Giovanni Simonetti
08.00	Our experience with the use of the Fiber Optic RealShape (FORS) lumiguide technique for endovascular navigation during complex aortic procedures Speaker: Frédéric Cochenec
08.05	TOE vs ICE in aortic dissection as a guide in the aortic dissection procedures Speaker: Eustachio Agricola
08.10	Non-adhesive liquid embolic agents in different thoracic and abdominal diseases Speaker: Massimo Venturini
08.15	Trans-caval approach for Type II endoleak treatment Speaker: Gianpaolo Carrafiello
08.20	Value of PET/CT scans in detecting and treating vascular graft infections: what are their limitations? Speaker: Zoran Rancic
08.25	Aortic length as a component in indicating infra-renal aortic disease processes Speaker: Martin Czerny
08.30	Advantages of photon counting CT in aortic imaging Speaker: Antonio Esposito
08.35-08.53	Discussion

HOME

08.55-09.53	SESSION 24 Venous IV Moderators: Enrico Ascher Peter Gloviczki Rebeca Reachi Lugo
08.55	Robotic assisted nutcracker syndrome management Speaker: Young M. Erben
09.00	Ovarian transposition for the treatment of symptomatic left renal vein compression Speaker: Bernadette Aulivola
09.05	Stent maintenance for the long term Speaker: Stephen A. Black
09.10	Optimizing outcomes in acute ilio-femoral DVT: the emerging role of computer-assisted vacuum thrombectomy Speaker: Efthymios Avgerinos
09.15	Venous thoracic outlet syndrome, my practice and current evidence Speaker: Mert Dumantepe
09.20	Role of DCB treating vascular access stenosis Speaker: Matteo Tozzi
09.25	Mid-term outcome of dedicated venous stent for treatment of central vein steno-occlusion in hemodialysis patients Speaker: Jimmy Wei Hwa Tan
09.30	Advanced lymphedema surgery: how I select, stage and perform reduction surgery in the modern era Speaker: Marald Wikkeling
09.35-09.53	Discussion

HOME

09.55-10.43	SESSION 25 Thoraco-abdominal aortic aneurysm II Moderators: Joseph S. Coselli Nicola Mangialardi Anders Wanhainen
09.55	Should zone 2 landing be solved with branched devices? Speaker: Vicente Riambau
10.00	Hole-y grail: mastering spot-on fenestrations in physician-modified Speaker: Csaba Csobay-Novák
10.05	Hybrid stent-graft technique in bridging hostile renal arteries in thoraco-abdominal branched endografting Speaker: Enrico Gallitto
10.10	SVS clinical practice guidelines Speaker: Joseph V. Lombardi
10.15	Left subclavian revascularization: which endovascular strategy, and when? Speaker: Bijan Modarai
10.20-10.33	Discussion
10.33-10.43	Keynote Lecture Gustavo S. Oderich How to avoid/treat complications of complex aortic endovascular procedures

◀ HOME

10.45-11.58	SESSION 26 Organ protection Moderators: James H. Black III Laurent Chiche Andrea Kahlberg
10.45	Clinical experience on almost 500 MEP assessments Speaker: Michael J.H.M. Jacobs
10.50	Aortic arch replacement, ideas to facilitate thoraco-abdominal second stage Speaker: Emanuele Gatta
10.55	Perfusion strategy in open thoraco-abdominal surgery with challenging access. What are the options? Speaker: Morad Sallam
11.00	Prevention of spinal cord ischemia after endovascular stent-graft repair of thoracic aorta Speaker: Pierfrancesco Veroux
11.05	Spinal cord ischemia in endovascular aortic repair: contemporary prevention strategies and clinical outcomes Speaker: Grace Mulatti
11.10	Endograft stiffness hurts the heart: “robbing Peter to pay Paul” Speaker: John A. Elefteriades
11.15	Organ protection in TAAA Speaker: Joseph S. Coselli
11.20	Prevention of spinal cord ischemia after endo TAAA repair using patient-specific computational modelling Speaker: Barend Mees
11.25-11.48	Discussion
11.48-11.58	Keynote Lecture Davide Pacini Cerebral protection during aortic arch surgery
12.00-12.08	WINNER OF THE ABSTRACT COMPETITION

HOME

12.10-13.03	SESSION 27 Artificial Intelligence II Moderators: Firas F. Mussa Giovanni Pratesi Kak Khee Yeung
12.10	AI in planning, sizing and endoleak detection Speaker: Igor Koncar
12.15	AI and biomechanics in AAA predictive analytics Speaker: Nathan L. Liang
12.20	Deep learning-driven false-lumen volumes predict adverse remodeling better than diameter in patients with residual aortic dissection on CT Speaker: Mariangela De Masi
12.25	From scalpel to sensor: how I integrate AI, telemonitoring and remote case support into daily vascular practice Speaker: Marald Wikkeling
12.30	Visualization and comparison of hemodynamics in the native aorta and after branched endovascular repair using computational flow simulations Speaker: Fiona Rohlfs
12.35	Digital twins in aortic disease: from concept to clinical decision tool Speaker: Bijan Modarai
12.40-12.53	Discussion
12.53-13.03	Keynote Lecture Giulia Veronesi Robotics in thoracic surgery
13.03-13.30	LUNCH

HOME

13.30-14.33	SESSION 28 EVAR complicated / Ruptured AAA Moderators: Ali Azizzadeh Alessia Giaquinta Michael Jenkins
13.30	Endovascular repair of ruptured abdominal aortic aneurysm Speaker: Felice Pecoraro
13.35	Open conversion of infected aortic endografts: data from a prospective, multicentre registry Speaker: Antonio Freyrie
13.40	Endovascular treatment of ruptured thoracic aneurysm – Single center experience Speaker: Igor Koncar
13.45	An enhanced recovery protocol for late open conversion after EVAR failure Speaker: Efrem Civilini
13.50	Improved outcomes of open repair of abdominal aneurysm rupture Speaker: Kay-Hyun Park
13.55	Addressing Type II endoleak after EVAR: an innovative strategy to improve stent-graft stability and reduce the risk of late aneurysm rupture Speaker: Rocco Giudice
14.00	A decade of the GSTT aortic infection programme. Why we should focus more on management algorithm outcomes than comparing treatment options? Speaker: Morad Sallam
14.05-14.23	Discussion
14.23-14.33	Keynote Lecture Grace Mulatti Impact of endovascular protocol adoption on ruptured aortic aneurysm outcomes: lessons learned from an institutional analysis

HOME

14.35-15.18	SESSION 29 Supra-aortic / Carotid arteries Moderators: Gaetano Lanza Jimmy Wei Hwa Tan Arno von Ristow
14.35	Mini-incision carotid endarterectomy Speaker: Enrico Ascher
14.40	Beyond dogma: strategy-driven stroke prevention in carotid revascularization Speaker: Stefano Bartoli / Tommaso Castrucci
14.45	Completion angiography after carotid endarterectomy is crucial Speaker: Dittmar Böckler
14.50	Is it whortwhile treating carotid pseudo-occlusion? Speaker: Raffaele Pulli
14.55	Impact of carotid revascularization on cognitive performance Speaker: Gianluca Faggioli
15.00	CEA in very elderly patients: indications and AI potential role Speaker: Andrea Ascoli Marchetti
15.05-15.18	Discussion

◀ HOME

15.20-16.33	SESSION 30 More arterial topics Moderators: Raffaella Berchiolli Andrea Gaggiano Bernardo Mendes
15.20	Femoral complications of percutaneous access: prevention and treatment Speaker: Diletta Loschi
15.25	Primary outcomes of a BTK sirolimus-eluting bioresorbable vascular scaffold for the treatment of infra-popliteal lesions Speaker: Michael Lichtenberg
15.30	Lessons from more than 650 CERAB cases in the BeGlory Registry Speaker: Barend Mees
15.35	The Semmelweis legacy: lessons learned applicable to vascular and wound care practices Speaker: Peter Gloviczki
15.40	Overcoming recoil in BTK interventions: tips and tricks Speaker: Jos C. van den Berg
15.45	Sirolimus-coated balloon technology for femoro-popliteal arterial disease: current evidence and clinical perspectives Speaker: Daniele Mascia
15.50	Innovation in aortic arch and thoracic treatment: the role of the integrated CO ₂ protocol in reducing gas embolisms Speaker: Sara Speziali
15.55	Drug eluting stent in femoro-popliteal disease: real-world evidence from a single-center experience Speaker: Alessia Giaquinta
16.00-16.23	Discussion
16.23-16.33	Keynote Lecture Enrico Ascher Innovative open and endovascular techniques developed over the years to save hopelessly ischemic lower limbs

◀ HOME

16.35-17.48	SESSION 31 Venous V Moderators: Bernadette Aulivola Young M. Erben Francesco Stilo
16.35	Stenting for left renal vein compression Speaker: Rabih Chaer
16.40	Venous stenting in oncology patients Speaker: Efthymios Avgerinos
16.45	Twenty years of clinical experience with radiofrequency ablation: evidence, outcomes, and current positioning Speaker: Chiara Lomazzi
16.50	Mechanical thrombectomy for ilio-femoral DVT treatment - Current technology Speaker: Michael Lichtenberg
16.55	Outcome of stent-graft treatment in the central vein stenosis Speaker: Matteo Tozzi
17.00	Our experience in the management of renal tumors with vena cava involvement requiring hepatic vascular exclusion Speaker: Frédéric Cochenec
17.05	Innovation in stent design applied to ilio-caval reconstruction Speaker: Domenico Baccellieri
17.10	Cyanoacrylate glue venous truncal ablation - How I do it and 5-year results Speaker: Kevin Cassar
17.15-17.38	Discussion
17.38-17.48	Keynote Lecture Peter Gloviczki Complex surgery of the deep veins

HOME

17.50-18.13	SESSION 32 Flow Limited Iliac Artery (FLIA) Moderators: Germano Melissano Paolo Raugei
17.50	Thermography for screening Speaker: Paolo Raugei
17.55	Open surgery for iliac endofibrosis in endurance athletes Speaker: Daniele Mascia
18.00	Redo surgery can bring an Olympic gold Speaker: Laurent Chiche
18.05-18.13	Discussion

HOME

18.15-18.58	SESSION 33 Aorta II Moderators: Michael J.H.M. Jacobs Grace Mulatti Raffaele Pulli
18.15	Managing aortic complexity with a new off-the-shelf thoraco-abdominal endoprosthesis: evidence, experience, and technical consideration Speaker: Nathan L. Liang
18.20	Aneurysm sac dynamics and its prognostic significance following fenestrated and branched endovascular aortic aneurysm repair Speaker: Sonia Ronchey
18.25	From standardization to results: AI in 4-fen physician modified endografts and SPHERE Registry Data Speaker: Michele Piazza
18.30	Physician-modified and in situ fenestration for visceral aorta repair: combine techniques to overcome challenges Speaker: Martina Bastianon
18.35	Quadruple arch-branch in patients with arteria lusoria Speaker: Tomasz Jakimowicz
18.40	Physician modification of commercially available devices to replicate the frozen elephant trunk technique Speaker: Enrico Rinaldi
18.45-18.58	Discussion

HOME

19.00-19.45	SESSION 34 Aorta III Moderators: Mohamed Hosny Barend Mees Pierfrancesco Veroux
19.00	Endovascular management of vascular complications in Ehlers-Danlos syndrome Type IV Speaker: Alexis Jacquier
19.05	Open conversion after failed EVAR is increasing and associated with better survival and reintervention rates to F/B FEVAR Speaker: George Geroulakos
19.10	How we approach complex aortic repair in Brazil Speaker: Julio C. Peclat
19.15	Complex aortic aneurysm repair: the current status in South Africa Speaker: James Tunnicliffe
19.20	Physician modified endografts in resources limited settings Speaker: Mohamed Hosny
19.25	Techniques for the treatment of hostile necks during EVAR Speaker: Aaron Fargion
19.30	Carotid endarterectomy for symptomatic free-floating thrombus: results from the SURF study Speaker: Rodolfo Pini
19.35-19.45	Discussion
19.45-19.50	Closing remarks
